Dear Patient,

Thank you for your continued trust in Kulbersh Women's Center care for your health.

“Medicare pays for one screening Pap smear every two years for **LOW RISK** beneficiaries and one screening Pap smear every year for **HIGH RISK** beneficiaries.”

The following risk factors would consider you at **HIGH RISK** and thereby eligible for a yearly pap smear:

- No Pap Smear testing within the last 7 years.
- Onset of sexual activity prior to 16 years of age.
- Five or more sexual partners in your lifetime.
- History of a sexually transmitted disease (including HPV).
- Fewer than three negative pap smears within the previous seven years.
- Exposed daughter of a woman who took DES during pregnancy.

Please select your patient category.
